

**THE ORGANIC RESEARCH CENTRE – ELM FARM
Newbury, Berkshire, UK.**

Principal Researcher (G8) & Livestock Team Leader – Ref: RES1801

Salary range £34,920 - £44,192

The Organic Research Centre is looking to appoint a Principal Researcher/Team Leader for its Livestock Research Team. The post will report to the Deputy Director Programmes and be responsible for all areas of the programme including delivery, development and dissemination of the research as well as management and development of staff.

The candidate would possess a PhD or equivalent experience in animal or livestock sciences with a good understanding of one or more of the following; animal nutrition, genetics, health & welfare and grassland management. An understanding and experience of designing and implementing applied livestock trials and experiments is essential. You should have a track record of project acquisition and management as well as experience of staff and resource management, scientific and conference publications and working within international research consortia. Understanding and experience of participatory approaches to research and programme management would also be desirable. Excellent communication skills, both oral and written, are vital.

The successful candidate would be based at the Organic Research Centre's Elm Farm site in Berkshire but must be prepared to travel regularly in the UK and other EU countries.

Further details and the application form (**we only accept applications on this form**) can be obtained from our website www.organicresearchcentre.com/workwithus Please quote reference **RES1801**.
